

Call for Applications: The 2021 Benefits for Success CTE Academy

The Academy is a **one-year hands-on learning and design project** for community and technical college Career and Technical Education (CTE) programs to **maximize students' use of vital benefits and resources**.

Colleges will **design and test solutions** to make student access to benefits **efficient and student-friendly**, helping **boost retention** now and in the future.

APPLICATIONS DUE DECEMBER 18

INSTRUCTIONS

OVERVIEW

During this pandemic, **students are struggling to stay enrolled in college**.

COVID-19 hits low-income and underserved students the hardest—the very students who could benefit most from post-secondary education.

A key solution is to ensure that students take full advantage of the benefits and supports available to them. **In this Academy, the Student-Centered Design team at SJI will work with colleges to make sure that resources for students don't go under-utilized.**

BENEFITS OF PARTICIPATING

- Develop resilient practices to support student success and **respond in real time to COVID-related challenges**
- Receive a **specially designed toolkit, research support, and technical assistance**
- Gain **new and enhanced strategies** to support student retention and completion
- **No fee to participate**

DETAILS

Timeline: April 2021 - April 2022 (pre-work in March 2021)
